

WELLMAN DESERTS BALLOON AND TAKES TO LIFE BOAT; WAS PICKED UP BY VESSEL

ATTEMPT TO CROSS ATLANTIC
IN BALLOON FAILS.

WIRELESS GIVES THE NEWS

News Received at Noon After Night
of Anxiety and No Definite Word
Received.

[BY ASSOCIATED PRESS.]
New York, N. Y., Oct. 18.—A wire-
less message to the Times from Cap-
tain Daud of Royal mail steamer
Trent says the Trent picked up Wel-
lman and the crew of the America at
five this morning and that the ship
had been abandoned.

The rescue was made in latitude 33,
43, longitude 68, 18.

The position reported by Daud in-
dicates Wellman and his crew were
picked up at Point 150 miles due east

Walter Wellman.

of Cape Hatteras on the North Caro-
lina coast.

All Are Safe.
"Wellman, his entire crew and out-
fit are now safe on board," the message
said. "The ship was damaged but the
life boat off and was about east of
Cape Hatteras, half way between Har-
bor and Hatteras."

Afloat in Sea.
The crew of the ship "America,"
in abandoning their craft, lowered
themselves into the life boat which
swung beneath it. They then cast the
life boat off and were afloat on the
sea. The ship shot high into the
air and was blown away. The trans-
port from the life boat to the "Trent"
was effected with much difficulty.

Not Anxious.
Atlantic City, N. J., Oct. 18.—No
tidings as to the whereabouts of the
ship America were received here
up to this morning. Mrs. Walter
Wellman expressed her belief that
the ship is out of the track of the
steamer and she did not expect to
hear from Wellman for a day or two.

Sable Island, Off Nova Scotia, Oct.
18.—At 7 a. m. today the wireless
station was in communication with
steamer Ivernia fifty miles out but
had no tidings of Wellman. An hour
later the steamer President Grant,
60 miles out, reported no news of the
America.

Comb Ocean.

New York, Oct. 18.—Incoming ocean
liners today report the ship nearly
all across the Atlantic have been
sighted by wireless in an attempt to
locate Wellman and the dirigible
America. At ten a. m. today Wel-
lman and party had been at sea 74
hours.

SUES FOR DAMAGES

SUSTAINED BY FALL

Mrs. Ellen Parsons Sues the City of
Detroit For Sum of \$3,000.

[BY UNITED PRESS.]
Detroit, Oct. 18.—Mrs. Ellen Par-
sons has started a suit against the
city of Detroit for \$3,000 damages al-
leged to have been sustained in a fall
from a defective sidewalk.

LABOR CONVENTION

AT ROCK ISLAND.

[SPECIAL TO THE GAZETTE.]
Rock Island, Ill., Oct. 18.—Between
three and four hundred delegates are
in attendance at the twenty-eighth
annual convention of the State Fed-
eration of Labor of Illinois which be-
gan here today. In accordance with
the provisions of the constitution of
the organization all delegates appear-
ed at the opening session with union
labels conspicuously displayed upon
every garment and other visible
parts of their apparel.

FOREST FIRES IN

MINNESOTA AGAIN

Towns and Settlements Near Duluth
Threatened by Conflagrations in
Brush and Woods.

[BY UNITED PRESS.]
Duluth, Minn., Oct. 18.—Brush and
forest fires are threatening the settle-
ment of Tying, 16 miles west and the
settlement around Pike Lake, two
miles south of Tying. Fire fighters
have been sent out from here.

Men at Work.

Walker, Minn., Oct. 18.—A force of
one hundred men fought forest fires
close to this city all night. The town
is in danger today.

GUSTAV SCHARFF MAY BE PARDONED

Sixth Board of Control, has Matter
Under Consideration—Murdered
Six Years Old Girl.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Oct. 18.—The State
Board of Control today took under
consideration in application for a
pardon for Gustav Scharff, who is
serving a life sentence for the murder
of Otto Kling and her six year
old daughter in Milwaukee in 1904.

Scharff murdered the woman, who
was his mistress, and her little daugh-
ter by checking them to death on board
a small boat. After killing the pair
he threw their bodies into the Mil-
waukee River.

EX-MAYOR FACES ANOTHER CHARGE

More Trouble Awaits Abraham Eby
Who Blackmailed Presi-
dent Cassatt of Pennsyl-
vania Road.

[SPECIAL TO THE GAZETTE.]
Richmond, Va., Oct. 18.—Abraham
Eby, former mayor of Burkeville, Va.,
who was convicted in Philadelphia
about a year ago and sentenced to a
year's imprisonment for having black-
mailed the late President Cassatt of
the Pennsylvania Railroad, will be
released tomorrow in Philadelphia,
only to be at once re-arrested by the
order of the Post Office authorities.
Eby will be brought to Richmond for
trial on the charge of having used
the U. S. mail for unlawful pur-
poses in writing threatening letters to
Mr. Cassatt. Friends and relatives
of the prisoner have raised a fund
to defend him on the ground that,
owing to the use of certain drugs,
he is of unsound mind.

CLUB-WOMEN OF MICHIGAN MEET

State Federation is in Session at
Battle Creek—Ohio Conven-
tion a Oberlin.

[SPECIAL TO THE GAZETTE.]
Battle Creek, Mich., Oct. 18.—Club
women from all parts of Michigan and
visitors from several other states
are in attendance at the annual meet-
ing of the Michigan State Federation
of women's clubs, which opened
here today for a session of three days.

The local women's clubs have made
great efforts to have the convention
interesting and entertaining for the
delegates and visitors and elaborate
programmes have been arranged for
every one of the three days of the
convention. During the morning ses-
sion today the usual routine business
connected with the opening of a con-
vention of this kind was disposed of
and in the afternoon the biennial sym-
posium was held. Conservation,
home economics, industrial institu-
tions, the white slave traffic and
other important subjects were dis-
cussed by prominent speakers.

Ohio Convention.

Oberlin, O., Oct. 18.—With a large
representative attendance the annual
convention of the Ohio Federation of
Women's Clubs assembled in Oberlin
today for a three days' session. An
attractive programme which inter-
spersed business with pleasure has
been prepared for the gathering.

D. A. R. at Cedar Falls.

Cedar Falls, Ia., Oct. 18.—The most
distinguished gathering of women
ever entertained in this city is here
today for the annual state confer-
ence of the Daughters of the American
Revolution. A reception tonight in
honor of the visitors marks the for-
mal opening of the conference. The
business session will begin tomorrow
and continue over Thursday.

ROOSEVELT RESTS AFTER TALK-FEST

Colon. Will Spend Couple of Days at
Oyster Bay Before Attempting
Further Stump Speaking.

[BY UNITED PRESS.]
New York, Oct. 18.—Tired out with
exhortations on the stump yesterday,
Col. Roosevelt returned from Troy to-
day and took a train for Oyster Bay
where he will rest for a couple of days
trying to get his throat in shape for
future speaking.

CHARITIES CONFERENCE

IN THE SUGAR STATE.

[SPECIAL TO THE GAZETTE.]
Galveston, Ill., Oct. 18.—With Judge
Ben Lindsey of the Denver Juvenile
Court and other persons of promi-
nence participating in the wide range
of discussions which make up the
four days' program, considerable pub-
lic interest attaches to the annual
meeting of the Illinois state confer-
ence of Charities and Corrections,
which assembled in this city today.
Nearly all the leading cities of the
state are represented by delegates.

FIND BODY OF MAN NEAR

HOMEWOOD THIS MORNING

[BY UNITED PRESS.]
Milwaukee, Oct. 18.—The body of
an unidentified man with his head
horribly mangled was found today by
Deputy Sheriff Dimick near Home-
wood. The identity is a mystery.

Pres. De Land Spoke.

President De Land of Milton College gave a twenty
minute talk to the students of this
high school this morning. He spoke
on the value of a higher education in
the various phases of life.

JOHN DIETZ TO BE TRIED IN MADISON?

Opinion is That Capital City Will Be
Scene of Trial Instead of Milwau-
kee, Where Dietz is Fa-
vorite.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Oct. 18.—The opin-
ion grows here that John P. Dietz
will be tried in Madison and not in
Milwaukee. A change of venue is con-
sidered and Milwaukee has been sugges-
ted as the probable choice for the tri-
bunal hearing. The unlikelihood of
the Green City being chosen, how-
ever, is based on the well known pro-
Dietz sentiment which permeates the

metropolis and which has culminated

in a big mass meeting, addressed by

the mayor and others.

Madison, on the other hand, it is

argued, has remained calm and un-
prejudiced, and, being the capital of
the state, with ample accommodations
for lawyers and others interested,
should prove exceptionally desirable
as the trial city. Sheriff John P. Hal-
bach of this county and others be-
lieve Madison will be the place and
is said to be certain the state will
oppose the choice of Milwaukee.

prompt the barristers for the prison-
ers. In England, a solicitor practices
only in the civil courts, barristers
representing prisoners in the criminal
courts.

It is generally believed today the
defense will demand Lord Chief Jus-
tice Altonstone instruct the jury to
acquit Crippen as soon as the crown
has rested, on the ground that suf-
ficient evidence has not been ad-
vanced to convict. It is the consensus
of opinion this point will be accorded
by Lord Altonstone, he preferring
to allow the case to go to the jury. It
is expected the case will occupy a full
week in trial.

Miss Leneve's trial will follow Dr.

Crippen's and if Crippen is freed it is

thought she will be at once set free.

Thousands of persons have attempt-
ed to gain entrance to the court room
but all have been refused. Only the
press and a few favored outsiders are
admitted to hear the trial.

Members of State Central Committee

Did Not Leave Meeting Until

Four A. M.

[BY UNITED PRESS.]
Milwaukee, Oct. 18.—After a ses-
sion lasting until four o'clock this
morning, members of the Republican
state central committee, who had not
taken to their beds, would say noth-
ing about the action believed to have
been taken relative to the Harroft-
supreme Court decision. He said
Sen. La Follette had sent word that
the court decision should be endorsed.
"Mum" was the word, however.

Method of Handling Immigrants Ex-

plained to Taft Today by Immi-

gration Officials.

[BY UNITED PRESS.]
New York, Oct. 18.—The methods of
handling immigrants upon their ar-
rival upon the shores were explained
first hand to President Taft at Ellis
Island today. Accompanied by immi-
gration officials, the President was
taken to the station on the department
cutter, "Immigrant," for an inspection
tour.

ATLANTA'S ANNUAL

HORSE SHOW OPENS.

[SPECIAL TO THE GAZETTE.]
Atlanta, Ga., Oct. 18.—Many lead-
ing show horse stables are represented
at Atlanta's annual horse show, which
opened in the Auditorium and will
continue until the end of the week.
The prominent contenders for rib-
bons are Alfred Vanderbilt of New
York and Lawrence Jones of Louisi-
siana.

CONFEDERATE VETERANS

IN REUNION AT NORFOLK.

[SPECIAL TO THE GAZETTE.]
Norfolk, Va., Oct. 18.—Hundreds of
Confederate veterans from all over
the Old Dominion are here in attend-
ance upon a three days' session, be-
ginning today, of the annual reunion
of the Grand Camp of Confederate
Veterans of Virginia. Tomorrow will
be held the grand parade and also
the principal social events of the
gathering.

AMERICAN'S TRIAL STARTS TODAY IN COURT IN LONDON

Dr. Crippen Placed on Trial for Mur-
der of Wife—Lord Chief Justice
Sitting on Case.

[SPECIAL TO THE GAZETTE.]
London, Oct. 18.—The trial of Dr.
H. H. Crippen for the murder of his
wife, Belle Elmore, the misse hall
singer, began today in Old Bailey.

Of such importance is the trial con-
sidered that Lord Chief Justice Al-
tonstone presides on the bench.
King's Counsel Muir is in charge of
the prosecution, assisted by Barrister
Humphreys, who appeared for the
crown in the preliminary hearing of
the American doctor-chemist.

Barrister A. A. Tolin, assisted by
Barrister Thimbley Jenkins, are repre-
senting Crippen, while Barrister F. E.
Smith, assisted by Barrister Ward are
appearing for Ethel Clara Leneve,
Crippen's typist who flew with him to
America.

Solicitor Newton, who has looked
after the interests of Crippen and
Miss Leneve since their arrest, will
appear for them.

ATHLETICS WIN SECOND GAME OF THE WORLD'S SERIES FROM THE CHICAGO CUBS EASILY

DEAD MAY NUMBER SEVERAL HUNDRED

Much Anxiety Felt for Coast Towns
Due to the Big
Storm.

[BY UNITED PRESS.]
Jacksonville, Fla., Oct. 18.—Hun-
dreds of lives, it is believed, will toll
the tale of the terrible hurricane which
today is sweeping the Gulf Islands
and coast after wide communication
is resumed. Grave fears are felt for
the people at Tampa, Fla.

At Key West.

Jacksonville, Fla., Oct. 18.—Grave
fears are felt today for the citizens of
Key West in the terrible storm now

G. O. P. CONVENTION IN RHODE ISLAND

Governor Aram J. Porthier and Other
State Officers are Sated for
Renomination.

[SPECIAL TO THE GAZETTE.]
Providence, R. I., Oct. 18.—Extrem-
ely harmonious is the outlook for the
Republican State and Congressional

convention to be held here tomor-
row. Governor Aram J. Porthier
and other state officers are slated for
renomination.

While the Republicans are harmoni-
ous and well organized there are
several conditions existing this year
which promise to make the campaign
one of more than ordinary interest.

In the first place, the recent death
of Gen. Chas. R. Bratton, the "blind
boss," removed a leader upon whom
the party had depended in almost ev-
ery campaign for the past thirty-five
years.

General Bratton's loss will be felt
more seriously in the event the Re-
publicans control the next general
assembly, which will choose the suc-
cessor to United States Senator Al-
drich. It now looks as if a battle
were in store similar to that three
years ago, when Colonel Samuel P.
Colt, whose friends are urging his
name, was the majority candidate
against Senator George P. Wetmore.

Colonel Colt has made no announce-
ment regarding the senatorship, but
many of his friends, who have been
informed that Colonel Henry P. Lip-
pitt, the millionaire yachtsman and
cotton manufacturer, is the choice of
both Senators Aldrich and Wetmore,
are up in arms. Friends of Governor
Porthier and former Governor Utter,
whose names have also been men-
tioned in connection with the senator-
ship are also strongly opposed to the
plan of Senator Aldrich and his coter-
ies to ignore all other candidates and
select Colonel Lippitt for the senate.

The opponents of Colonel Lippitt
will probably endeavor to have
tomorrow's state convention go
on record for a senatorial candidate
as did the Democratic party at its
convention a few weeks ago when it
indorsed Judge Arthur L. Brown, of
the United States district court, for
the seat of Senator Aldrich.

The more progressive leaders
among the Democrats are more than
hopeful of controlling the general as-
sembly, though no Republican can
be found in the entire state who be-
lieves for a moment there is any pos-
sibility of the G. O. P. losing control
of the legislative body and the power
to choose the successor to Senator
Aldrich. The Democrats, it is pointed
out, have had a majority in the
general assembly only once in sixty
years and never in a senatorial

EVEN BROWN COULD NOT STOP THE RUSH OF THE AMERICAN LEAGUES THIS AFTER- NOON.

TURKEY FACES MONEY CRISIS.

Cabinet is Disrupted by Trouble Over
Army Budget.

Constantinople, Oct. 18.-The Turk-
ish government is facing a financial
crisis. Three members of the cabinet
resigned because of complications
over the army budget. The retiring
ministers are Djavid Bey, finance;
Mahmoud Schukhet Pasha, war, and
Talaat Bey, interior.

Island Fire Halts Ship.

Ashland, Wis., Oct. 18.-Hermit Is-
land, Lake Superior, is covered with
flames. The smoke from the burning
island and from forest fires back of
Dayfield covers the surrounding coun-
try and hinders the progress of ves-
sels. The fire has also developed
near Benoit, threatening farms and
timber belonging to the Pines Lumber
company.

Uncle Allen.

"I see," quoth Uncle Allen Sparks,
"that my old friend Mr. Rockefeller
says he's a socialist 'in a sense.' Well,
maybe he is, but when it comes to dol-
lars, by George, he's about the big-
gest individualist I know of!"

NAVY'S NEW OPTIC NERVE.

The Nebraska, the first dreadnought to use typewriting telegraph. Below,
Dr. G. A. Cardwell, inventor of the telegraph typewriter. At right, oper-
ator receiving message over telephone wire without disturbing use of
telephone.

Now York, N. Y.-The naval battle before the death of the big guns long
of the future between the giant dread-
noughts of the deep will be decided by within range of the smaller batteries.

In such a light information relative
to the distance and speed of the
women's ships will be of vital importance
to the grim fighters upon whose im-
pulsiveness the great steel cannon in
the turrets depends the outcome of
the conflict. The fighting top of the
new battleship, high above the deck,
becomes the eye of the fighting com-
mander, and upon the preservation of con-
munication between this precarious
perch and the great skeleton mast,
and the "brains" of the ship below the
coring tower depends the efficiency
of the giant fighting machine. Today
the loud-speaking telephone is largely
dependent upon the transmission of
intelligence from lookout to the fight-
ing arm of the ship. In the dim of
battle it is quite evident that such
method of communication would be
most at least decidedly unreliable, if
not inoperative. A system which
would cause printed observations to
appear beside each great gun would
prove of inestimable value for the
handling of the battleship of the
dreadnought type.

It is just such a system that Uncle
Sam has ordered installed in his up-
to-date navy and work upon the mon-
ster Nebraska's new optic nerve will
commence at once. The new wonder
is a typewriting device. The look-
out upon the fighting top takes his
observations and then writes out his
messages upon the keyboard of what
looks like an everyday typewriter. In-
stantly the electric keys cause vary-
ing electrical impulses to operate the
proper mechanisms in the hold of the
ship and the chief officer's typewriter
and those in the turrets automatically
write the message upon a sheet of
white paper.

It looks like a ghost machine as the
keys move up and down and the let-
ters appear, with no one to work up-
on the machine.

This magic telegraph system is the
invention of an engineer who stands
preeminent today as an expert in
engineering and electrical science.
Dr. Cardwell was the engineering
adviser of the late Jay Gould.

CLARA MORRIS' HOME IS SAVED.

Famous Actress' Residence Is Kept
Out of Clutch of Creditors.

New York, Oct. 18.-Clara Morris'
home was saved to her by her brother-
in-law, S. W. Harriet, taking over
the first mortgage of \$20,000 on the
famous actress' residence at River-
dale on the dividing line between this
city and Yonkers. Meanwhile her
friends are confident they can sell a
portion of the property not needed by
her and pay off the indebtedness.

IDEAS FROM SWISS FARMERS

American Agriculturists May Get
Much Valuable Information at
Coming Exhibition.

Berne, Switzerland has just per-
fected plans for an exhibition that
will interest Americans, particularly
those who are feeling the stress of the
high cost of living in the cities, and
the listening to the call of "back to
the farm." Especially will the ex-
hibition appeal to those who are con-
sidering the reoccupation of the
abandoned farms of New England; for
if there is a country anywhere on
earth that could teach the hill and
mountain valley farmer of any other
country how to wrest a living from
their holdings to the best advantage
it is Switzerland.

In Switzerland farming has been
conducted on the intensive principle
for centuries; all sorts and conditions
of soils, locations, and even climates
had to be dealt with to provide a
hardy people with a livelihood. This
experience has been wrought into the
very marrow of the peasants, and they
have evolved methods and processes
by means of which they have been
able to get the most out of their indus-
try.

The results of these methods and
processes will be shown at the fair, in
the exhibits, so the announcement
that has just been made of the hold-
ing of this general exhibition of Swiss
rural industries at Lausanne should
interest thoughtful people in America,
including even the government. It
will afford a unique opportunity for
obtaining knowledge that will be of
great value.

Lausanne's national exhibition will
present a complete review of the pro-
cesses of cultivating and fertilizing the
soil, of the raising of cattle, the
utilizing of the products and the agri-
cultural tools in use. It will illustrate
the progress made in all those direc-
tions and will be particularly valuable
as a demonstration of the possibilities
of Swiss rural industry.

SHEEP LIKE TOBACCO STEMS

Pennsylvania Farmer Believes That
Weed Keeps His Flock Free
From Infection.

Montrose, Pa.-Pennsylvania has
sheep that chew tobacco. This does
not mean that the source of all mutton
certainly enters the crossroads store and
calls for a plug or wants a package
of snuff. These sheep take theirs
in a more primitive form, but are said
to look upon it as being a luxury as
much as the voracious tobacco user in
the land.

These unusual animals are the prop-
erty of a farmer of Montrose, who is
reported to have taken home a whole
wagonload of tobacco stems to feed
his sheep and lambs.

He says that in the spring he always
gives them some of the weed, that it
keeps away certain infections to which
they are subject in the springtime, and
that the animals become very fond of
the stems, taking a full-sized chew
every day.

Fasting Reduces Weight.

Kittanning, Pa.-By fasting for four
weeks William George has succeeded
in reducing his weight 40 pounds.
George weighed 200 pounds. For four
continuous weeks he did not touch
food and lived by drinking quantities
of water.

WHY PEOPLE SEE PHANTOMS

Hallucinations of Famous Characters
Due to Abnormal Sensibility of
the Nervous System.

A world of delirium of the organs of
sense or of delirium, is sufficient to
invest our mental conceptions with
phantom shapes. Our thoughts vary,
according to the violence of our emo-
tions, from faint mental pictures to
vivid and almost corporal apparitions.
The strength of these sensational in-
fluences is naturally proportional to
the susceptibility of the nervous or-
ganism.

A consideration of these facts in
conjunction with the acknowledged
neuropathic tendencies of genius
accounts to many of the mysteri-
ous anecdotes with which the names
of great men and women are associ-
ated. The hallucinations of Mahomet
and of Jean of Arc, the appearance of
his dying wife to Doctor Donne in
Paris and Luther's discomfiture in
the devil by summary confusion with a
mischievous ink bottle, to mention but a
few instances, practically resolve into
cases of abnormal sensibility of the
nervous system. Who would learn
with surprise that Lucrèce, Ham-
thorne or Emily Bronte saw ghosts?
It should rather be an occasion for
wonder that genius is ever free from
the visitations of specters.

Buy It In Jansville.

BOYS THAT WAIT.
It is only a step
from the vacation bill
to something that's worse-
a big red bill to pay.

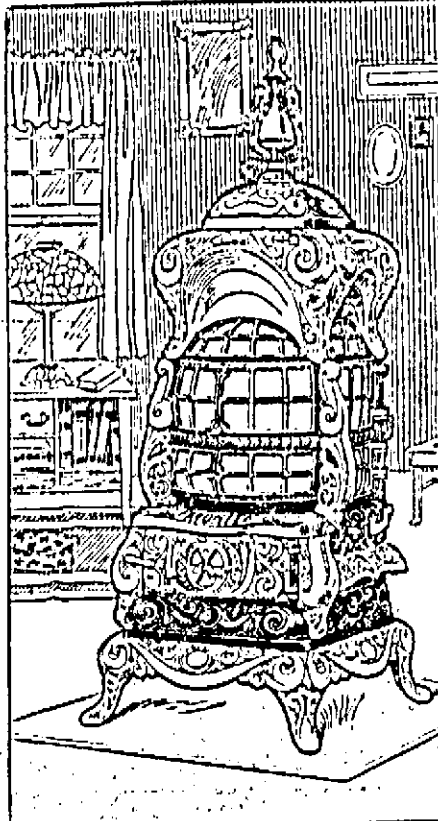

PUTNAM'S ANNOUNCEMENT

This store is now in complete readiness for fall and Christmas shoppers, all the im-
portant gift lines having arrived and are now displayed.

Many women do their shopping weeks in advance of the holiday season, and to attract
to our excellent lines and at the same time afford the early buyer an opportunity
to secure many gifts at low prices, we will inaugurate a

Series of Special Sales

between now and Christmas, on items of particular worth. Every "special" will be a rare
value, and usually sold at a figure that hardly represents its cost. Watch for later an-
nouncements of these "specials." They will be well worthy of your attention.

Don't Burn Up Your New Dress

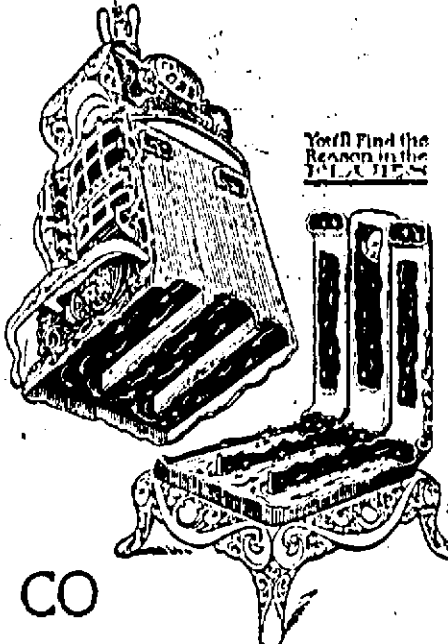

Scores of women will do it this
winter, in some poor, old base
burner; and they'll get very little
warmth out of it, too.

Don't you think it would be a good idea
to buy a First Class Favorite Base Bur-
ner, with Triple Exposed Flues, and save
enough on your coal bills this winter to
buy a new dress in the spring? It is a
positive fact—the Favorite does burn
less coal and throws out more heat than
any other base burner made.

It took an organized body of stove ex-
perts nearly fifty years to perfect it.
There is no other Base Burner like it,
because the features that make it such
a wonderful and economical heater are
patented. It is the most attractive
and best made stove, too.

In the Triple exposed Flues you will find one
reason why it will save fully one half on your
coal bills. But there are many other
reasons—too many to mention here.
Come and see us, and we will show
you that there is no other base
burner that will compare with
the Favorite.

SHELDON HARDWARE CO
EVERYTHING IN HARDWARE.

Had to come to Janesville

A Holist lady consulted a leading dentist of her city and said: "Doctor, if you can do my work without hurting me, you may have my patronage." The dentist got mad in a minute and replied: "Nobody can do painless work." "I know better than that," replied the lady, "for I have been to a Janesville dentist who never hurt me in the least." "Well, you better go back to him," said the ruffled dentist.

And she took the next car to Janesville, where Dr. Richards did her work as she desired, painlessly.

She said on leaving: "Dr. Richards, you didn't hurt me a bit."

"It's queer, isn't it, that while scores of dignified, ethical dentists declare most emphatically that there is no such thing as painless dentistry?"

Yet Dr. Richards goes right along serenely doing that very thing, and the people are standing by him for they appreciate efficiency and skill.

Dr. F. T. Richards,
Office over Hall & Sayles' Jewelry Store.

Prepare for the Cold Weather That Will Be Here Soon

Bring in your overcoats now for pressing, cleaning or repairing and avoid the rush in the weather gets colder.

New Velvet Collars put on. Best workmanship at \$1.00.

BRIEF LOCAL NEWS.

Auto Parties: H. B. North and a party of four from Rockford were registered at the Grand Hotel. They were bound for Madison. Mr. and Mrs. J. M. Brockway of Little, Ill., were also at the Grand Hotel. Automobile Tourists: Mr. and Mrs. J. M. Brockway of Little, Ill., and H. B. North and party of four from Rockford arrived here in a touring car and were registered at the Grand Hotel last evening.

Hallowe'en Party: The Misses Rebecca Keller and Agnes Griebel have issued invitations for a Hallowe'en party to be given at 251 South Jackson street on October 31.

Enjoyed A Social: The ladies of Florence Camp held a social at the home of Mrs. P. J. Caldwell on South Main street yesterday afternoon at which sewing, five hundred and thirty refreshments were enjoyed. Mrs. Caldwell and Mrs. Wallace Cochran were hostesses.

Has Fought His Last Duel.
A couple of quarrelsome schoolboys in Paris, aged respectively fourteen and fifteen, fought a duel in the Bois de Boulogne, with sharp foils. Both were wounded, one in the thigh, and the other under the other under the fifth rib. The mother of the older duellist so "warned" the lad when he returned home, that his feelings have been severely lacerated, and he says he has fought his last duel.

THREE BALLOONS ARE SEEN TODAY

AMERICA 11 LOW ENOUGH TO TALK WITH W. C. HUGONIN ABOUT SIX.

THOUSANDS WATCH FLIGHT

Second Thought to Have Been American and Last A Foreign Airship Probably German.

Janesville residents had the opportunity this morning of seeing three of the ten balloons that left St. Louis yesterday afternoon shortly after four and several persons talked with Allen R. Hawley, pilot of America 11, one of the American entries in the race this first to be seen. The second big gas bag passed over north of the city too high to more than distinguish a man waving an American flag, showing it was another entry either the United States with Louis Von Pohl of St. Louis, pilot and Joseph O'Reilly of St. Louis or St. Louis No. 4, H. B. North of St. Louis pilot and J. W. Tolland of St. Louis pilot.

The third was too high up to distinguish even the flag and passed directly across the city in plain view of thousands who could see flags waving which resembled those of Germany, Hungary 11, Dusseldorf 11 or Germania, being the German entries. France also has the Condor and the Isle De France entered and Switzerland the Azure and Helvetia containing, making ten in all that started.

America 11 appears to have been the only one that was near enough to the ground to hold any conversation. W. C. Hugonin, who resides south of the city was the first to report having conversed with the pilot who asked what place this was and what city was near and to report that all was well. Mr. Von Pohl who also lives south of the city had a similar experience with the same balloon which then rose rapidly and disappeared in a north by east direction going higher and higher until it was lost sight of.

The Gazette advised its readers last evening that the balloons were likely to pass over the city and many were on the watch early this morning for them and were not disappointed. In return for the hint to be on the lookout the telephones at the Gazette began ringing before seven with the news the balloons were in sight and from that time until the last one had disappeared thousands watched the progress through the sky.

J. E. Inman had a telescope with which he watched the last one, which he thought to have been a German gas bag with others utilized field glasses and even opera glasses in watching the progress. The race started from St. Louis yesterday and is the fifth international contest of the Aero club of America.

The balloons were released at intervals varying from one minute to twenty minutes. The first off was the Condor, and the last was the Germania.

Condor (France), Jacques Faure, pilot; Ernest G. Schmoelke, aid; 1:40:25.

Million club (United States), St. Louis von Pohl, St. Louis, pilot; Joseph O'Reilly, St. Louis, aid; 1:52:30.

Azure (Switzerland), Capt. Emil Messner, pilot; Leon Olivaud, aid; 1:57:07.

Hungary 11 (Germany), Lieut. Leopold Vogt, pilot; William F. Assman, St. Louis, aid; 5:14.

Isle de France (France), Alfred LeBlanc, pilot; Walther de Munim, aid; 5:24.

St. Louis No. 4 (United States), H. B. North, pilot; St. Louis, pilot; J. W. Tolland, St. Louis, aid; 5:26.

Helvetia (Switzerland), Capt. Theodore Schneck, pilot; Paul Armbruster, aid; 5:27:30.

Dusseldorf 11 (Germany), Lieut. Hans Gerkeke, pilot; Samuel P. Perkins, New York, aid; 5:30.

America 11 (United States), Allan R. Hawley, pilot; Augustus Post, aid; 5:47.

Germania (Germany), Capt. Hugo von Albrecht, pilot; August Blanche, aid; 5:54.

The race is for the James Gordon Bennett cup and \$5,750 in cash, divided into three prizes. The car making the greatest distance before landing will be declared winner.

The French entrants included champagne and whiskey in their supplies of drink. The Germans placed beer and sausages in their baskets, they also had bottles of wine and large pieces of chocolate in their haversacks. Most of the balloonists took fruit with them.

H. B. North, who is in the balloon St. Louis No. 4 will cook his meals by using kerosene. He has been able heretofore to boil coffee and fry eggs. His balloon will be electrically lighted from the use of batteries.

Hans Gerkeke, one of the foreign balloonists, took a revolver with him. He stated he expected to shoot game if he landed in a wooded part of the country. Honeywell carried a rifle in his basket to be used, he said, to scare persons who attempted to hold him up and thus force him to make a landing.

mon chased around town putting up receivers for people and they fervently pray that no more balloons come this way.

In Across Lake.
Muskegon, Mich., Oct. 18.—One balloon crossed Lake Michigan and passed north of Muskegon at 10:15 this morning.

Makes Landing.
Rushville, Wis., Oct. 18.—The balloon, "Million Population," Von Pohl, pilot, landed in a cornfield six miles north of Rushville this morning. Von Pohl lost most of his ballast at Vernon, Wis., where drugstore caught in a telephone pole and he was afraid to cross miles. The Swiss balloon "Azure," the lake without it. It covered 320 sailed over here and out over Lake Michigan this morning.

German Down.
Big Bend, Wis., Oct. 18.—The German balloon, "Dusseldorf," piloted by Lieut. Hans Gerkeke, passed over here at 7:10 this morning. A message dropped said all was well aboard.

Five Seen.
Milwaukee, Oct. 18.—Five of the ten balloons starting from St. Louis in the international race had been sighted here at 9 o'clock today. Three were identified, the "Dusseldorf," "Germania," and "St. Louis." They were traveling north by east across the lake towards Canada.

Near Beloit.
Beloit, Wis., Oct. 18.—At least three of the ten big balloons in the international race passed over Beloit and vicinity this morning. Some of the gasbags were so high as to be little more than visible and others were only about 200 feet above the earth. Hoebert Halley, living ten miles west of here, saw three balloons.

"America 11."
The "America 11" passed over his dooryard at 6:30. One of the men in the balloon asked Mr. Halley what time it was. Mr. Halley told him and invited him down to breakfast. The balloon was about 200 feet above the ground. He saw two others, one at 5 o'clock, and one at 7. He could not distinguish their names. At 7:45 o'clock one balloon estimated to be two thousand feet above the earth, passed directly over the city.

One is said to have gone over St. Atkinson at six o'clock so low the anchor was dragging. Ballast was thrown out, however, and the balloon ascended.

SHERIFF WENT TO CHICAGO FOR WARD

Is Wanted Here After All—Has Confessed to Theft of \$25 and Ring From His Aunt, Miss Julia Garvin.

Chief Appleby this morning received from Stephen H. Wood, head of the Chicago detective bureau, a letter explaining his message of yesterday inquiring as to whether or not Frederick Ward was wanted here. Ward, he said, had confessed to having robbed his aunt, Miss Julia Garvin, who lives in the Presidential block, of \$25 in money and an opal ring on the 13th of October. The Chief immediately went to see Miss Garvin and learned that she had suspected her nephew of the theft but not being certain, had not reported the matter to the police. He came up to see her on the day in question and made an ineffectual effort to persuade her to go on a note for him. It was probable that he returned to the flat after she had gone back to her work at the Lewis Knitting Co. plant. Miss Garvin says that Ward not long ago took diamonds worth \$150 from her sister and sold them for \$50. It cost \$80 to get them back but the family did not prosecute. She swore out a complaint for the man and Sheriff Scheibel, armed with the warrant, left for Chicago on a noon train.

Fur Sale and Opening Tomorrow
J. M. Hestwick & Sons will display tomorrow what is probably one of the greatest shows of furs ever shown in Janesville. In addition to their own stock they will have with them the representative of one of the leading manufacturers.

BELOIT WILL GIVE A PUBLIC LANDING

Common Council Promises Landing If Rock River Is Improved.

Beloit, Oct. 18.—The common council has adopted a resolution promising in case Rock river is improved from Sterling, Ill., to Janesville, to provide a public landing as asked by the government.

Study Class Meeting: O. E. S. Study Class will meet Wednesday afternoon with Mrs. Corson, 327 North Terrace street.

Caught Eczema From Clothing

Infectious Diseases Spread by Chinese Laundries in Mexico.

(From the Enquirer Sun of Oct. 15.)
Monterey, Mexico, Oct. 15.—The condition of the Chinese laundries in this and other Mexican cities which have just been brought to light by the recent investigation of the board of health in this city has greatly aroused all persons interested in the question of public health. The inspectors claim that in many cases small pox and other infectious diseases abound among Chinese, being found in the very rooms in which the clothes were laundered and that it is positively dangerous for anyone to allow their clothes to be sent to such a place.

All the laundries in this city are in the hands of the Chinese and the matter is a serious one. The Chinese men live in large numbers in small, crowded rooms, reeking with the fumes of opium and other drugs and the washing and ironing are done in these same rooms. The Chinese are experts at keeping the conditions of affairs in their homes hidden from the public, but this only makes the matter more grave. It is said that in this city alone over 300 cases of eczema were caused last week from clothes sent to these laundries.

BRIEF PERSONAL MENTION.

Mrs. A. M. Glenn left on the early morning train for Richmond Center, where she will inspect the Woman's Relief Corps in that part of the state. She was accompanied by Mrs. Agnes Corson of Terrace street. They will be gone about ten days.

J. G. Ring of Chicago was in the city yesterday to attend the Callahan-Clark wedding.

John A. Laddolph, who for the past seventeen years has been employed at the Janesville Carriage Co., has resigned his position and accepted one with the Wisconsin Carriage Co.

Miss Belle Connell, who is employed as stenographer for a Chicago insurance firm, spent Sunday in the city.

Mr. and Mrs. Ed. Smith of Albany were the guests of Mr. and Mrs. James Sallinger, 223 North Pearl street, from Saturday until Monday night.

Miss Emma Paulson, who has been visiting here, returned to her home in Clinton today.

E. H. Harlow of Richmond, Cal., is here for the funeral of his mother, Mrs. E. G. Harlow.

Mrs. Henry Link has returned from a visit in Chicago.

Mr. and Mrs. Wendel Stude of Mineral Point were visitors here yesterday.

Mrs. C. A. White and Miss Hernandez of Los Angeles, Cal., who have been touring in Europe, are visiting at the home of Mr. and Mrs. W. T. Sherer for a few days.

Mrs. S. L. Walker was in Chicago Monday.

Mrs. J. A. Craig left for Chicago this morning.

Archibald Reid is in Chicago on business.

L. L. Thompson of Beloit was in the city yesterday.

James Hoffmann went to Chicago this morning.

Mr. and Mrs. E. O. Kimberley returned from Brodhead last night after a delightful visit of three days with friends. Mr. Kimberley sang Sunday morning and evening in the Congregational church. He was the first singer among others in the church, after his election in 1879, and was the only one present of the original number upon this occasion.

Mr. A. S. Curry of Chicago is here to spend a day or two with his family at 344 So. Main street. Mrs. Curry is a daughter of Col. and Mrs. C. O. Kimberley. Mr. Curry has large interests with other Chicago people at Venetian, Washington, in real estate and fruit growing and spends considerable time out there as manager of the company.

B. H. Baldwin departs tomorrow morning for Dixon, Ill., where he will attend the annual reunion of the Illinois ex-prisoners of war.

J. E. Inman departed this morning for Great Falls, Montana.

T. J. McConnell of Burlington was a visitor here today.

H. S. Norton of Rockford transacted business here today.

Edward McNair of Brodhead was a visitor here today.

WHALEN-SCHUBERT WEDDING AT SEVEN

Miss Mary Whalen and Andrew Schubert Married at St. Patrick's Church This Morning.

This morning at seven o'clock at St. Patrick's church occurred the marriage of Miss Mary Whalen, daughter of Mr. and Mrs. John Whalen, Pleasant street, and Andrew H. Schubert, Miss Nellie Golden of this city was bridesmaid and Leonard Schubert of Cadiz, a brother of the groom, acted as the best man. A large number of the intimate friends of the bride and groom attended the ceremony.

They left for a short honeymoon trip, and will be at home to their friends about November 1, at 521 North Hickory street.

The bride is well known and popular in this city. The groom is employed in the printing department of the Gazette Printing company.

Out of town guests at the wedding were: Mrs. Albert Martin of Kansasville; Mrs. Andrew and Mrs. Andrew Schubert, Catherine Schubert, Mrs. Schubert, and Mr. and Mrs. Kleinholz of Madison.

Every man should have a checking account and most women. You furnish the money and will do the rest. It's not tops. No expense at the Rock Island National Bank.

Home Course In Health Culture

First of a Series of Eighteen Articles
By EUGENE L. FISK, M. D.

I.—Fresh Air In the Home.
Its Low Cost and High Value

Dr. EUGENE L. FISK,
Author of "Home Course In Health Culture"

THE old Greek philosophers regarded air as a simple and unchangeable element like gold, silver, etc., and the problem of how air sustains life was certainly "Greek" to them.

This ignorance of the composition of air persisted until the latter part of the eighteenth century, when Priestley discovered that air is a mixture of gases, one of which, oxygen, is necessary to life. By experiment on animals he demonstrated that in passing through the lungs air parts with some of its oxygen to the blood and takes from the blood a poisonous gas—carbon dioxide. Priestley, of course, was not aware that air may also bring from the lungs and throat other organic impurities and the microbes of disease. As ignorance of these facts existed for thousands of years it is not strange that our ancestors built their homes and ordered their lives entirely without regard to the value of fresh air. Even now, however, the old habits persist to some extent, and stuffy, overheated, ill ventilated rooms may be found in every community.

If fresh air were a high priced commodity there would be some excuse for not breathing it. But, except in the case of overcrowded tenement districts, pure air is within the reach of rich and poor alike, and neglect to

HAS PROUD RECORD

RAILROAD MAN'S LONG TERM WITH ONE LINE.

George Wrightson, Employed for Fifty Years on the New York Central, Refuses to Quit—His Many Experiences.

Fifty years of continuous service with the New York Central railroad. Fired the engine of the train upon which Abraham Lincoln was secretly taken to Washington for his inauguration.

Five years later was the engineer who carried Lincoln's body from New York to Albany.

Engineer on the famous Continental Limited for 26 years, running between Syracuse and Utica.

Never had but one accident during his entire service and that was eight years ago. Lost his right eye and since that time has been running a switch engine in the Albany yards.

Could be retired on half pay for the rest of his life, but refuses to give up the throttle.

Such is the remarkable record of George W. Wrightson of Batavia, N. Y., who has been visiting his nephew, J. H. Hall, manager of the Belvidere hotel. Mr. Wrightson is now on a six months' vacation given him by the railroad company, because of his half century service. He stopped in Denver for several weeks and left today for Los Angeles. Mr. Wrightson is 70 years old, says the Denver Times.

Mr. Wrightson went with the New York Central in 1860. He fired for three years and in 1863 was changed over to the right hand side of the cab.

He had two notable experiences in his youthful days. When Abraham Lincoln was smuggled into Washington for his inauguration, the trip being taken with the utmost secrecy because of the fear he would be assassinated, Wrightson was one of the firemen who assisted in that journey.

In 1865, when Lincoln was killed, Wrightson was an engineer. He had the funeral train on his division of the road.

For 26 years Wrightson had the Continental Limited between Syracuse and Utica. Then he had his first and only accident. He lost his right eye, one of the worst possible afflictions to an engineer, for it made him partially useless on the main road and resulted in his being transferred from the limited to a switch engine in the Albany yards. The accident occurred in 1902. Mr. Wrightson is secretary of the railroad legislative board of New York. He has been a member of the Brotherhood of Locomotive Engineers since 1894. While in Denver he delivered an address to the members of Division 185 of the Brotherhood of Locomotive Engineers. His talk was on the workings of the legislative body with which he is connected.

Left Child Practically Unharmed.

Escaping alive after a train had passed over him was the experience of George James Randon, a four-year-old boy, living with his parents at Hull, England. The child had climbed up the embankment and was toddling along the track when a coal train of 30 cars came along. The driver did not see the child nor did he hear the agonized shouts of the spectators—amongst whom was the boy's uncle—who were too far off to render aid. The child was soon to be struck down, and the spectators anticipated it had been cut to pieces. When the train had passed the boy was found lying between the rails with only an injury to the head. The coupling links had struck and stunned the child, and it had lain motionless while the train passed.

New Fuel for Railroad.

Although the Texas, Arkansas and Louisiana railroad is only seven miles long, it is a pioneer in the use of natural gas as a fuel for locomotives.

The one engine of the system, after burning coal and oil, is now using natural gas to get up steam, and it is asserted that the last is the best of all. There are neither cinders, smoke or small incident to its combustion and steam is kept up with a regularity that would be the delight of any engineer. A saving of twenty-five per cent, is effected by the use of gas.

To the regular tender, now useless except as a carrier of water, a standard gas tank is attached. Whether natural gas can be used to advantage by locomotives on long runs has not been determined.

Railway Yard Plants.

It has been noticed that many plants not natives of the locality, are to be found growing in the neighborhood of great railroad yards. Sometimes the seeds of these plants have been brought thousands of miles from their natural habitat. Often they flourish amid their new surroundings and gradually spread over the surrounding country. Thus the trains carry unsuspected emigrants, which travel to and from every point of the compass. In the Missouri valley are to be found plants which within a few years past have thus been brought together; some from the Atlantic seaboard, some from the Gulf region and some from the other side of the Rocky mountains.

—Harper's Weekly.

Cannot Irrigate Sahara.

Proposed schemes to irrigate the desert of Sahara are said to be impracticable because of the great depth of the overlying deposit of sand.

All She Wanted Was the Man.

"My wife didn't ask me to sign over my fortune when I married her," said the man in the corner seat. "She was too glad to get me to bother about trifles."—Cleveland Plain Dealer.

Poverty.

Poverty is, except where there is an actual want of food and raiment, a thing much more imaginary than real. The shame of poverty—the shame of being thought poor—is a great and fatal weakness, though arising in this country from the fashion of the times themselves.

Making Children Strong.

Strength is the one great good life has to offer, but like most desirable things, there is no royal road to it. Sometimes it is only to be gained in devious pathways which appear to lead in quite another direction. Study your children; thus only will you be able to stake out their particular routes to health. Learn the strengthening power of cold water, outdoor exercise, sleep in a cold, dark room, early bed hours and simple meals. Do not send for a doctor at each sneeze, or live with a clinical thermometer in your hand.

Wonderful Kitchen.

The largest kitchen in the world is that of the Hotel Marche, the noted department store of Paris. In this kitchen is prepared the food for the whole of the 4,000 employees of that great establishment. The smallest kettle holds 75 quarts, the largest 375 quarts. There are 50 frying pans, each of which is capable of holding 300 cutlets at a time, or of frying 220 pounds of potatoes. When there are omelets for breakfast 7,500 eggs are used. The coffee machine regularly employs 60 cooks and 100 kitchen boys.

WEDNESDAY, Oct. 19

One Day Only

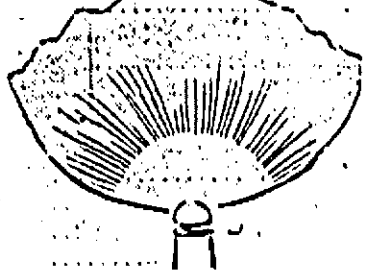

Fur Sale and Opening

The agent of one of the leading manufacturers will be at our store for the day, prepared to take special orders and deliver any piece in his line.

FOR THIS DAY ONLY WE WILL ALLOW A DISCOUNT OF 10 PER CENT

on all of our own furs.

This will be a splendid chance to buy a nice fur garment. By making a cash deposit you can have any garment reserved, and pay for it later if you are not quite prepared to buy.

ONE CUBIC FOOTER OF AIR AS MUCH OXYGEN AS FOUR AND A HALF INCHES.

obtain it can only arise from ignorance or indifference to bodily health. I suppose people may still be found who dread to breathe the "night air," who delight in "alco, warm," heavily curtained rooms, where the sunlight cannot fade the furniture and the winter air is rigidly excluded. I would invite the attention of such people to a few simple and easily demonstrated facts.

Fresh Air Facts.

In the first place, answering the possible query, "What has all this talk about fresh air done for humanity?" I would say that it has lowered the death rate from consumption over 40 per cent in the last thirty years. In the same period it has reduced the death rate among people under thirty years of age about 30 per cent. It has done so much that cautious, conservative scientific men are looking forward to a complete eradication of consumption and other communicable diseases and their banishment to the limbo where the "black death" and smallpox have been driven.

Pure air is composed of, approximately, seventy-nine parts nitrogen and twenty-one parts oxygen, a trace of carbon dioxide, vapor of water and minute quantities of other elements which have no known influence on the body. After air is expelled from the lungs it contains, as Priestley first demonstrated, an increased amount of carbon dioxide and a reduced amount of oxygen.

It has been estimated that each person requires 3,000 cubic feet of fresh air per hour if the proportion of carbon dioxide is to be kept below 4 parts in 10,000—the pure air limit.

It must not be thought that carbon dioxide in excess of that quantity is particularly harmful. If mingled with other impurities it may be present in the proportion of 50 to 100 parts per 10,000 without endangering life. As usually present in dwelling rooms, schoolrooms, factories, etc., however, it is an index of the amount of other impurities exhaled from the lungs and skin.

Open country air has been found to contain only 3 parts per 10,000 carbon dioxide.

Has Books of Many Kinds.

The British museum contains books written on oyster shells, bristles, tines, bones, ivory, lead, iron, sheepskin and palm leaves.

bon dioxide, while the air of a crowded "schoolroom" may contain twenty times that amount and be correspondingly vitiated by organic impurities, microbes and what has been well named the "sewage" of the lungs and skin.

Renewing Air In Rooms.

Even where a liberal air space is allotted to each individual it is necessary that the air of a room be completely changed at least once every hour. In schools and factories where there is limited air space per capita arrangements are often made for changing the air from five to seven times per hour.

One gas burner consumes as much oxygen as four and one-half men.

I have considered thus far the air poisons and deleterious matters derived from the human body. Other sources of contamination also exist and are a menace to health. I have mentioned vapor of water as an ingredient of pure air. This vapor is quite necessary to health, and its absence occasions a peculiar dryness of the skin and a stiffness in the head which is often the first stage of a common cold. The cold is directly caused by microbes, but the system is laid open to their attacks by the conditions above described.

The absence of vapor of water is usually the result of faulty heating methods. A hot air furnace or stove will supply unduly dry air unless some device is used for supplying moisture. Such devices are ordinarily attached to furnaces in the form of a small reservoir opening into the air supply. Neglect to keep this reservoir filled with water is a serious mistake and may be responsible for much discomfort and illness. Where no such device is a part of the heating apparatus a vessel of water should be placed upon the stove or at some point where the hot air will pass over it and take up the moisture; otherwise it will take the moisture from the body.

The temperature in the house should not be allowed to rise above 68 degrees. Neglect of this precaution is frequently responsible for undue susceptibility to colds.

Some Ventilation Points.

In considering the practical problem of ventilation the following items are of most importance:

The most efficient means of ventilating, especially in the winter time, is the heating system. The hot air furnace, which insures a constant supply of fresh outside air, is the best system if the air is supplied direct to each room and the precautions taken to keep the air moist which I have already outlined. While this system does not provide for releasing bad air, this usually escapes through the cracks of doors and windows. It is desirable, however, to have open fireplaces wherever possible to insure the rapid escape of vitiated air. Where stoves are employed the air is not changed very rapidly, and the dangers of contamination from coal gas necessitate some special means of ventilation. An excellent measure is to raise the lower sash of a window about four inches and close the opening with an accurately fitting board. This will allow the air to come in between the two sashes without causing a draft. Two holes may be cut in this board and small boxes opening toward the ceiling placed over them.

As frequently as possible living rooms should be thoroughly ventilated by opening all windows and doors and rapidly and completely changing the air.

Where the hot water or steam system is used for heating the above precautions are also advisable, as such systems do not provide any means of ventilation.

Ventilating at Night.

The problem of ventilating at night is much simpler, but in all these matters common sense and caution must be used. In the winter time precautions should be taken against drafts, but a thorough ventilation of the sleeping rooms should be rigidly maintained regardless of the condition of the weather. It is usually possible to have free ventilation without draft by properly placing the bed. This ideal method, however, is to have a sleeping porch or balcony, where one may sleep practically in the open. Such a porch can easily be adjusted for protection from inclement weather.

Another method is the window tent. This is very much like an ordinary window awning, but is placed on the inside of the window, over the upper part of the sleeper's body, completely shutting him off from the air of the room. This method has the advantage of insuring the constant breathing of outside air without drafts and at the same time keeping the temperature of the room fairly warm.

Not more than one person should sleep in a small bedroom. If possible children should sleep alone and each child have a room to itself.

World's Cable Lines.

About 250,000 miles of cable rope are at the bottom of the sea, representing \$250,000,000. This works out at about \$1,000 a mile to make and lay.

AUCTION

As I am going into other business, I will sell at Public Auction on my farm two miles southwest of Janesville on the Afton road, near the Frances Wilford school house, on east side of river, on

Thursday, Oct. 20

At ten o'clock, sharp, the following described property:

3—HEAD OF HORSES—3
 13—MILCH COWS—13

7 grade Holstein heifers, some with calf; 5 spring heifer calves, 1 Holstein bull; 35 pigs, and several hundred lb. 1, Red chickens.

FARM MACHINERY

1 3-horse Clover Leaf manure spreader, nearly new; 1 Deering grain binder, nearly new; 1 good McCormick corn blower; 1 good buggy; 2 road wagons; 2 farm wagons; 2 sulky plows; and other machinery and tools. 2 incubators; 190 bushels oats; 5 bushels Canada field peas, about 25 acres of corn in shock, several tons of hay and straw in barn.

FREE LUNCH SERVED AT NOON.

JOHN SAUTER,

John Ryan, Auctioneer.

RATE FIGHT APPEAL REFUSED.

Supreme Court Denies Rehearing of Missouri River Tariff Cases.

Washington, Oct. 15.—A rehearing of the Missouri river rate cases was refused by the United States Supreme court. As a result the order of the interstate commerce commission reducing class rates between Mississippi river crossings and Missouri river crossings on freight originating at Atlantic seaboard points will go into effect.

Rehearing in the so-called Denver rate case also was refused by the Supreme court. This action will allow the order of the interstate commerce commission, reducing freight rates on class articles from Chicago and St. Louis to Denver, Col., to go into effect.

Steel Magnates See Chicago Plants. Chicago, Oct. 15.—One hundred men prominent in the steel and iron industry of Europe, who were the guests of the American Iron and Steel Institute during its annual meeting in New York, are visiting the steel plants in and around Chicago today with members of the Institute. They are making a tour of inspection of the big steel-making plants of the United States. On Saturday they will be in Washington and will call on President Taft.

Big Gypsum Plant Burns. Alabaster, Mich., Oct. 15.—The mammoth plant, mill, dock and warehouses of the United States Gypsum company burned to the ground at a loss of over \$150,000.

TAX-DODGERS TO SQUIRM--NOTION JOYS CITY DADS

EXPERTS OFFER TO COLLECT \$60,000 DELINQUENT TRIBUTE.

DUE FROM OKLAHOMA SNAPS

And the Like and Place Millions of Dollars Worth of Intangible Personal Property on Janesville Rolls.

Attorney Joseph H. Workman of the firm of Workman & Higgs, tax experts, submitted to the common council last evening a proposition to voluntarily in character that the mere suggestion that it is to be seriously entertained will cause almost every man of means in the community to sit up and take notice. And it is to be seriously considered. For, at the conclusion of the discussion, the City Fathers, at the instance of Alderman Dull, passed by unanimous vote an order directing City Attorney Maxwell to draft a proposed contract between the firm and the city of Janesville for the collection of delinquent taxes on money invested by local people in mortgages and corporation stock in other states. Aldermen Brown and Evans were absent from the session.

"Not One Cent For Tribute"

Under the laws of Wisconsin mortgages held by Wisconsin people on Wisconsin property are not subject to taxation. Neither is the stock in petroleum corporations doing business in the United States. But mortgages held by Wisconsin people on property in other states, shares of stock in foreign corporations, and various notes, bonds, and other moneyed credits could be put on the tax roll if the taxpayers had any way of locating the same, which they haven't. The firm of Workman & Higgs claims to have been engaged in the gentle sport of trailing tax-dodgers in Indiana and Iowa and through the high interest states of Oklahoma, Dakota, Texas, and California for the past decade and to have accumulated some 3,500 pounds of typewritten evidence which can be used to advantage in various sections of the country. They claim that their files at this moment show the location of over a million dollars worth of credits owned here, which are and have been for years escaping taxation. They exhibit some of their evidence to prove that one local real estate dealer, for instance, has \$155,000 loaned at nine per cent in Oklahoma; that a certain local lawyer owns a \$30,000 mortgage in Dakota; that another citizen has a large block of Western Union stock which is paying a quarterly dividend of 15 per cent, or something of the kind, and so on. And in the face of all this they find that there is listed on Janesville's 1910 tax roll only \$14,500 in intangible assets and that not one dollar of the foreign loans and stock is included in this group.

Workman & Higgs propose to engage in a still hunt for the foreign credits owned here and place on the tax roll some \$2,000,000 of the collected \$1,000,000 more or less of this sort of intangible property owned at Janesville, taking as their reward thirty-three and a third per cent of the actual money turned in as back taxes for a period of three years. They do not ask to share in the returns for the current year but will be content with their share in the delinquent taxes for the three years allowed by law. They are to conduct all investigations and litigation at their own expense, the city to incur no liability whatever, and they agree not to meddle with any property within the borders of the state or interfere in any way with the work of the local assessors. If given the contract Workman & Higgs aver that they can bring \$21,000 in back taxes to the city treasury within a period of ten days, and over \$50,000 in the course of a few months. "This velvet will build your bridges, gentlemen," said Attorney H. J. Piper of Milwaukee who has prepared a brief on the Wisconsin taxation laws for Workman & Higgs and is actively interested in the proposition. "The placing of these credits on your tax rolls will result in the lowering of taxes on local property perhaps a third. It will also eventually turn back for local investment the stream of money that is now pouring into the high interest states. If foreign investments are taxed capital will find it advantageous to come back and engage in the building up of the local commonwealth."

Have Good Credentials.

Mr. Workman claims that in the last eleven years his firm has carried out 165 contracts with as many cities in Indiana, Iowa, and Minnesota. Negotiations are in progress with Milwaukee for the collection of delinquent taxes on about \$18,000,000 and also with Waukegan, Dr. F. C. Elliott, president of the Waukegan common council and member of the Finance committee, and O. T. Clinton.

Also of the Finance committee, accompanied Mr. Workman to Janesville and addressed the local City Fathers, stating that they had made a thorough investigation of the firm in Indiana and elsewhere and had found great satisfaction with its work expressed in every instance. In none of the communities where inquiries had been made had this "tax foresting" resulted in driving away local capitalists and in several instances a new impetus had been given to local enterprise and development by the return of money that had been invested abroad. Letters of endorsement from the clerk of the supreme court of Indiana, the auditor of the state of Indiana, and others were read and Mr. Workman answered numerous questions propounded by Mayor Carlo and the aldermen. The Waukegan delegation stated that their city would enter into a contract with Workman & Higgs at the meeting of the council next week and that they had learned that Mayor Seidel and others in Milwaukee were most favorably disposed toward the proposition. Some of the sort of work has been done heretofore in this state and Mr. Workman first became interested in Wisconsin as a prospective field for operations while attending the recent convention of the International Tax Experts' association in Milwaukee.

Phone Co. Gets Permit.

By virtue of an order introduced by Alderman Sheridan and passed by unanimous vote, the Wisconsin Telephone Co. was granted permission to excavate in the business district and place its cable in an underground conduit, in accordance with the petition presented on Sept. 15, with the proviso that it enter into a contract to restore the streets to their proper condition, repair any defects in the roadways due to such work which may subsequently come to light; and assume any liability for damages which may arise from the said operations.

Wilson Lane Threatened.

Alderman Buchholz introduced an order directing Wilson Lane to cover the frame elevator shaft in the rear of his building on North Main street with corrugated iron within ten days. "FOR WHAT?" demanded the Mayor. "The structure can be torn down if it doesn't fulfill the agreement made with the city when he was given permission to build within the fire limits," suggested Attorney Maxwell. "He has been evading this thing for eight months," said Ald. Buchholz. "Premises are the best we get. I don't believe he is acting in good faith."

Hallen at the Bridge.

Mayor Carlo announced that things got to going on crooked at the Spring Brook bridge last week that members of the street assessment committee who visited the scene deemed it expedient to place a man on guard in order to prevent the whole structure from being carried away. It might be necessary to have it painted for purposes of identification. So he appointed Edward Hallen as special policeman there from Oct. 18 to Oct. 19. The council approved the appointment and voted Mr. Hallen \$17.75 for his services. Appointments of John Dutton as special police officer without pay from Oct. 8 to Jan. 8 and John Benson, ditto, from Oct. 11 to Jan. 11, were confirmed.

Matters of Finance.

The Finance committee's report on bills was adopted; likewise the city treasurer's report for September. The latter official reported that the Washington street improvement bond issue had been sold to Miss Mabel C. Lee for \$128,225 in response to a communication from the board of education, an order was passed authorizing Mayor Carlo to borrow \$2,500 and place the same to the credit of the school fund for immediate use. Clerk Cummings was directed to draw on the city treasurer in the sum of \$1,400 payable to County Treasurer A. M. Chappel, the same being half of the amount due from Janesville to Rock county from the silicon license receipts. The treasurer was directed to transfer \$14.35 from the fund of \$2000 Oct. 15 to the general fund, the same being due for crushed stone used by Ed. Cochran & Nebel.

Miscellaneous Business.

The report of stone-crusher operations for the past two weeks showed that 128 yards of material had been delivered to Gund, Graham & Co. for use on South Main street and 606 yards to A. E. Rutledge & Co. for use on St. Lawrence avenue. Street Commissioner Proctor was directed to employ Charles Dalley to repair the wooden fountain covers and furnish such lumber as may be necessary after the remnants from the Spring Brook bridge shall have been utilized. The same official was also directed to build brick crosswalks in the following localities: across the alley on the west side of Chatham street between Havins street and Mineral Point avenue; across South High street on the north side of Western avenue; across Stone street on the south side of Western avenue; across Locust street between Center avenue and School street; across Chestnut street on the south side of Galena street; across South Academy street on the south side of Center street.

MILTON.

Milton, Oct. 15.—Mrs. C. W. Leonard and Miss Perceps visited Miss Bode Leonard at Madison Saturday and Sunday.

Prof. I. P. Grove, of St. Olaf College, Northfield, Minn., was in the village Monday. Fifty years ago his parents resided here and were employed by Joseph Goodrich.

W. B. Wovner was quite sick Saturday and Sunday but is improving.

Mr. and Mrs. J. R. Davidson of Milwaukee, are spending the week with Milton relatives.

Mrs. Leroy Boyd of Bozeman, Mont., has been visiting the Bond and Morton families.

Hon. J. C. Bartholf, wife and daughter of Milwaukee, spent Saturday and Sunday with Milton friends.

M. C. Whitford came back from the west Sunday morning.

E. H. Wells and family made an auto trip to Milwaukee Saturday returning Sunday evening.

Prof. J. D. Bond has been confined to the house for several days by sickness.

Miss Anna Plumb, who is teaching

at Poyette Academy, spent Saturday and Sunday at home.

R. W. Clarke and wife of Janesville spent Sunday here and at Lake Koshkonong.

SHOPIERE.

Shoppers, Oct. 15.—The Royal Neighbors of the local camp have accepted an invitation to visit the Crystal camp of Janesville on next Thursday, Oct. 20th.

Mr. and Mrs. H. L. Truesdell and daughter, of Rockford, are spending Mrs. Truesdell's vacation with his parents, Mr. and Mrs. A. Truesdell.

Van Hook, who has spent many years in mission work in Persia is visiting her aunt, Mrs. J. Dole.

Mr. and Mrs. Joe Weirick were called to Beloit by the serious illness of Mrs. Weirick's father.

Mrs. Anna Black entertained twenty-six members of the W. M. C. of Beloit last Tuesday at her home, Mrs. Black being a member of that lodge.

A fine dinner was served at noon after which a social hour was spent. There were a number of speeches and songs.

UTTER'S CORNERS.

Utter's Corners, Oct. 17.—Mr. and Mrs. Alfred Larvey and children spent the past week with relatives at Denmark and North Prairie. O. R. Rook took Mr. Larvey's place at the recreation.

Mr. and Mrs. Irvin Frommender and son, Thomas, will spend this week with relatives at Waukegan and Sullivan. O. R. Rook will fill his place at the recreation.

Mr. and Mrs. George Paust of Whitewater spent Saturday night and Sunday at the home of Mr. and Mrs. August Wendorf.

Mr. and Mrs. Paul Ruppnow and little son, and Richard Goodnoh of Johnston spent Sunday afternoon at the home of Mr. and Mrs. Roy Parusworth.

Mr. and Mrs. Geo. H. Roe spent Sunday in Whitewater.

Richard Peacock attended the M. E. church at Whitewater, Sunday morning and spent the afternoon at the home of Mr. and Mrs. George Bloxham in the city.

Otto Kelloff reports a very enjoyable time at a dance near Milton, Saturday night.

The Misses Margaret Roe and Hazel Farnsworth spent Sunday with Mr. and Mrs. B. W. Farnsworth.

Mr. and Mrs. John McLane of Whitewater spent one day last week on their farm here.

George W. Hull has leased his farm and sold his machinery, tools and other personal property at auction sale Wednesday. He will remain on the farm, however.

Richard Peacock is the first to get his corn husked in this locality. He has husked seven acres of good corn without any assistance, which is considered very good for a man past 81 years of age.

Mrs. Paul Schmitz entertained a company of her lady friends Saturday.

Mr. and Mrs. Herbert Taft and two children of Whitewater were Sunday visitors at the home of Mr. and Mrs. Roy Farnsworth.

Will Hookstock delivered his clip of wool to a Whitewater buyer Monday.

FOOTVILLE.

Footville, Oct. 17.—Mrs. Kate Dean is visiting at the home of F. W. Snyder.

Ray Lentz, who has a position in Brooklyn, spent Sunday with his parents.

Allie Richards and wife returned to their home Friday after spending a day at the parental home.

Mrs. Emma Burr of Chicago is the guest of her sister, Mrs. D. W. Popper.

Miss Wanda Evans of Janesville was a week end visitor at John Frisvold's.

Footville Chapter O. E. S. expect to entertain Janesville, Evansville and Cooksville Chapters Thursday evening at a six o'clock banquet after which the home chapter will initiate two candidates.

Mrs. Wm. Cory and sister, Mrs. Wilcox, spent the latter part of the week in Chicago. Mrs. Cory returned home and Mrs. Wilcox returned to her home in the west.

The ball game Saturday between the Footville Cubs and Hanover Black Diamonds resulted in a victory for the home team. The score being 12 to 6.

Clifford Owen left Friday to spend the winter in Silver City, New Mexico. His many friends are very glad that he is much better than when he went away one year ago.

Miss Lizzie Rowland spent Sunday in Evansville.

The Ladies Aid society of Hanover met with Mrs. F. Lentz last Wednesday.

Miss Ruth Vallum, of Janesville was the guest of her uncle, Fred Staehelin Friday night and Saturday.

Elmer Spencer and family of Janesville spent Sunday here with relatives.

Mrs. McCharlton entertained her mother from Beloit most of last week.

SAYS QUININE WILL NOT BREAK A COLD

How to cure the most severe cold and end all gripe misery in just a few hours.

You will ultimately feel your cold breaking and all the gripe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, will end the gripe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, fever, ringing of the ears, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or gripe.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end gripe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which "any druggist" in the world can supply.

OCTOBER TERM OF GREEN CO. COURT

Cases in Circuit Court Being Heard Before Judge Grimm This Week.

[SPECIAL TO THE GAZETTE.]

Monroe, Wis., Oct. 18.—The October term of court is in session here this week, and cases on the calendar are being heard by Judge George Grimm. The cases which are not settled by the end of the week will be laid over until Nov. 21.

Three divorce cases were heard before the judge, which applications were granted. Teresa Price was granted a divorce from Ray L. Price and Lillie B. Eddle from Ed. E. Eddle, no appearance of defense in either case.

Emma Atwood applied for a divorce from Fred O. Atwood and a division of property.

The first jury case to be tried will be the criminal action of Arthur Stoll. Earl Trickle was arraigned and pleaded not guilty to the abandonment of his family at Monticello on Aug. 29, 1910. St. P. Walker, the showman, charged with assault to do great bodily harm, was discharged. District Attorney McGrath stating the proof was insufficient.

Two state cases against James Ward and Walter Smith, and a number of jury cases are on the calendar. Action started by the bondsmen of the late Robert A. Etter to recover a shortage of \$1810 was dismissed, a settlement having been reached. The bondsmen will receive \$100 upon payment of the life insurance.

Trickle-Brewer.

A very unostentatious wedding was performed here at the home of Mr. and Mrs. Andrew Trickle when their daughter, Miss Florence Trickle, was given in marriage to Jay S. Brewer, the popular north side barber. Rev. F. A. Schuch, read the marriage service and following a wedding breakfast the bride and groom left with Mr. and Mrs. Trickle in the Trickle car for Freeport where they spent the day. They returned in the evening to this city and have begun housekeeping at 408 Main street where they have a newly furnished home.

Jerry Shea.

Jerry Shea, a well known farmer of the town of Chad, passed away here at the Grant home on North Jackson street, following a seven weeks' illness from cancer of the stomach. He was a native of New York state and was born in 1854. He was married in 1880 to Miss Birdie Grant of this city. They occupied a farm in Washington and four years ago moved to Chad. He leaves two sons and a daughter, one sister and three brothers. The funeral will be held tomorrow morning at 9 o'clock from the house and at 9:30 from St. Victor's church.

J. J. Tachidy has gone to Paris, Texas, with a carload of moveables to take possession of a 1500 acre tract of land recently purchased by him. Mrs. Tachidy will continue her visit here.

Miss Myrtle Kleberger is here from Chicago for a visit with her parents, Mr. and Mrs. J. H. Kleberger. She has been attending the art institute in Chicago.

E. P. Treat is dangerously ill at his home and his family are much concerned over his condition.

SOUTH FULTON.

South Fulton, Oct. 17.—Rev. Lester C. Randolph of Milton will give a stereopticon lecture entitled, "A Happy Home," at the Otter Heim U. B. church next Thursday evening, Oct. 20.

Mr. and Mrs. Arthur Albright entertained Edgerton guests over Sunday.

A large crowd attended the dancing party at Henry Shuman's Friday evening.

Mrs. Alfred Clough has been sick the past week and is under Dr. McCaskey's care.

Ferdinand and Carl Krause were Sunday visitors near Edgerton.

Mr. and Mrs. James Thomson and son John spent Sunday with the former's brother at Fulton.

Charles Bernhardt, brother's threshing outfit is busy in this neighborhood again. The season's work will be finished in a few days.

Mr. and Mrs. R. Albright and guests spent Sunday at Mrs. Waldow's.

Mrs. Albert Stark entertained her sister and family yesterday.

BROOKLYN.

Brooklyn, Oct. 18.—The special continue this week and next. Rev. Burnmore of Holleyville, expects to be here the remainder of the time during the week to preach and sing. He cannot be here Sundays on account of having his own charge to attend to.

Miss Irene Flood was home from Monroe a few days last week.

Arthur Ingelbirtson and Miss Clara Ingelbirtson of Cambridge, were guests at the E. W. White home Sunday.

Clayton Hubbard of Chicago, visited his mother, Mrs. Eva's Hubbard, last week.

Mr. and Mrs. Pope and Miss Nesbitt of Verona and Mrs. James Pledger of Pileburg, were Sunday visitors at the home of Mr. and Mrs. Geo. Pledger.

Mrs. Andrew Crahan left Burns, Neb., Monday and will arrive home some time this week.

Mr. and Mrs. Leonard Nurse of Frederickburg, Iowa, have been visiting Mr. and Mrs. H. S. Smith, Mrs. Nurse is a sister of Mr. Smith, and formerly lived here.

Mr. and Mrs. Henry Hoffmann of Danbury spent Sunday with Mrs. Henry Johnson.

Mr. and Mrs. Delbert Smith spent Sunday with relatives in Edgerton. A son was born to Mr. and Mrs. A. Wheeler, west of town, Sunday.

EMERALD GROVE.

Emerald Grove, Oct. 17.—There will be a harvest social at the church parlors Friday evening of this week. Chicken pie supper will be served.

The Myrtle Workers will hold a meeting at the home of Mr. and Mrs. D. E. Jones Tuesday evening, Oct. 25. Mrs. R. Johnson of Milwaukee visited at the home of her brother, John Lester.

LAUGHTER.

Laughter and love are everywhere. The mother laughs continually at the child, the lover laughs continually at the lover, the wife at the husband, the friend at the friend.—Gilbert K. Chesterton.

Delicately Formed

and gently reared, women will find in all the seasons of their lives, as maidens, wives and mothers, that the simple, wholesome laxative remedy, which acts gently and pleasantly and naturally and which may be taken at any time, when the system needs a laxative, with perfect safety and really beneficial effects, is Syrup of Figs and Elixir of Senna.

It has that true delicacy of flavor which is so refreshing to the taste, that warming and grateful tonic to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is required.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only, price fifty cents per bottle.

Dry Your Clothes on a Wet Washday

With a New Perfection Oil Heater

When clothes can't be hung outside, and must be dried in a room or cellar, the New Perfection Oil Heater quickly does the work of sun and air. You can hang up the wet clothes, light your Perfection Oil Heater, open the damper top, and the heat rises and quickly dries the clothes.

Do not put off washing to await a sunny day in order to avoid mildew. Dry your washing any day with hot air from a

PERFECTION
SMOKELESS
OIL HEATER

Absolutely smokeless and odorless

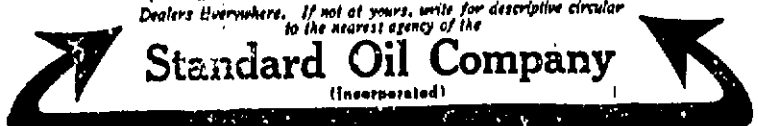

It gives just as much heat as you desire. It is safe, odorless and smokeless.

It has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. Burner body or gallery cannot become wedged, because of a new device in construction, and can always be easily unscrewed for reworking.

An indicator shows the amount of oil in the font. Filler-cap does not need to be screwed down, but is put in like a cork in a bottle, and is attached to the font by a chain. Finished in Japan or nickel, strong and durable, well-made, built for service and yet light and ornamental. It has a cool handle and a damper top.

Standard Oil Company

"And, they ain't no doubt about it, Sam had money into the bank when she died. But ever since then it's been all go out and no come in with him. He keeps fustlin' and fustlin' with them

ANGIE TUTHILL

inventors of his, but no one ever heard tell of his gettin' anything out of 'em."

"And wouldn't he do with all the money he had when Margaret died?"

"Spent it, what he didn't lend and give-away and lose indoors' notes for his friends and then-havin' to pay 'em. And, speakin' of notes, I heard Roland Barnette say father day that old Sam had a note countin' due to the bank and Dinky wasn't goin' to renew it any more."

"Course Sam can't pay it."

"Certainly he can't. I was in his store day before yesterday, and they wasn't nobody come in for nothin' while I was there. He don't do no business to speak of."

"How long was you there, Hiram?"

"From 6 o'clock to noon."

"What do you think?"

"Nuthin'—jest settin' round."

"I seen him today goin' into the bank. Guess he must 've gone to see Lockwood 'bout that note."

"Well, I don't envy him his call on Dinky Lockwood none."

"Maybe he went in to deposit his coupons," Watty chuckled.

Hiram snorted, and there was silence while he filled and lit his pipe.

"I heard tell this mornin'," he resumed, "that Josie Lockwood's goin' to give a party next week."

"Yes, I hear it too. Angie Tuthill was talkin' 'bout it to Mame Garrison up to Leonard & Call's. She said they was goin' to have the biggest time this town ever see—goin' to decorate the grounds with lanterns and have ice cream sent from Philadelphia, and cakes too. Can't make out what's come into Dinky to let that sort of his waste money like that."

"I figger," says Hiram after a moment's pause, "she must be gettin' it up for that New York deed."

"Duncan?"

"Gosh."

"I didn't know he was acquainted with the Lockwoods."

"I didn't know he was acquainted with nobody."

"That's all right," says Hiram, "but you ain't settin' round."

"Nuthin'—jest settin' round."

"I seen him today goin' into the bank. Guess he must 've gone to see Lockwood 'bout that note."

"Well, I don't envy him his call on Dinky Lockwood none."

"Nobdy 'ceptin' Homer Littlejohn and Hetty Carpenter, and they don't seem to know much about him. I call him darn cur'us. Hetty says he's allus a-settlin' in his room a-studyin' and a-studyin' and a-studyin'."

"He goes walkin' mornin's, Hetty told me."

"Waal, he don't come downtown much. Nobdy hardly ever sees him 'cept to church."

Hiram ponders this profoundly, finally delivering himself of an opinion which he has never forsaken. "I claim he's a 'splendid character.'"

"Don't look to me as though he know 'nough to be much of anything."

"Waal, now, if he's a real student and they ain't no outs 'bout him, what in tarnation's he doin' here? That's jest what I'd like to have somebody tell me, Watty."

"Hetty sez he sez he wants a quiet place to study."

Hiram snorts with scorn. "Oh, fiddle! You don't catch no New York young feller a-settlin' down in Badville unless he's crazy or somethin' worse."

"Tain't no use tellin' Hetty Carpenter 'no.'"

"No, 'if anybody sez a word ag'in him she shes 'em tight up.'"

"Tain't only Hetty, but all the wimmen 's on his side."

"That's proof enough to me he ain't right."

"Wimmen," says Watty as the result of a period of philosophical consideration, "is all crazy about clothes. When a feller's got good clothes you can't make them see no harm into him, no matter what he is. I pressed some of Duncan's last Saturday. I never see clothes—such goods and hah's. They was made for him, too—made by a tailor on Fifth avenue, New York. I forgot the name now."

"Waal, Roland Barnette sez they ain't stylish. He sez they're too much like an undertaker's gittup."

"Waal, Roland oughter know. He's the fanciest dressed up feller in the county."

"Yes, I guess he is."

The subject apparently languishes, but I know that it still occupies their sage meditations, and presently this is demonstrated by Hiram, who exclaims liberally by way of preface,

"When this cuss Duncan fust come here," he says, "with a self contained chuckle, 'everybody but me figgered he had stacks of money. Guess they be sligh' a different time now sligh' he's been goin' round askin' for work.'"

"This is news to me, and I sit up, wharlin' Watty's astonishment."

"He be a-doin' that, Hiram?"

"That's what he's been a-doin'."

"Funny I missed 'boutin' about it."

"He only started this mornin'."

He went to Southern & Leach's and Leonard & Call's and Godfrey's, and then I guess he must 've quit discouraged. They wouldn't none of them give him nothin'. Leastways that's what they said after he'd gone out. He didn't give nobody a real chance to say anythin'. I was in Leonard & Call's, and he came in and asked for a job, but the minute Len looked at him he turned right round and slunk out without a-waitin' for Len to say a word."

Hiram snorted in huge enjoyment of the retrospect. "He's the curiousest critter we ever had in this town."

"Yes," agrees Watty; "I guess he is."

At this juncture comes an interruption. Tracey Tanner returns hotfoot. Either he has been running or his breathlessness is due to excitement. Before the two upon the bench he pauses in agitated glee, a bearer of tremendous tidings.

"Hello!" he pants.

"Now, you Tracey Tanner," Hiram cuts in sharply, "you run 'long and don't be a-betherin' round. Seems like a body never can git a chance to rest with you children allus a-betherin' in."

"Aw, shet up," says Tracey disparagingly. "I only wanted to tell you the news."

Watty quavers, "What news, Tracey?"

"Well," says the boy, "I'll tell you, Watty, but I wouldn't 've told him after what he said."

"But what's the news, Tracey?"

There is suspense in the iteration.

"Well, waddy it's you, Watty."

"You, Tracey Tanner, you run 'long and stop your jokin'!" interrupts Hiram with authority.

"Tain't no joke; it's news I'm tellin' you. Say, what d'ye think, Watty?"

"Yes, Tracey, yes? What is it, boy?"

"That 'Noo' York deed," draws Tracey, "is a workin' for Sam Graham!"

A dramatic pause ensues. I rise and find my coat.

"Tracey Tanner," shrills Hiram, "be you a-settlin' the truth?"

"Kiss my hand and cross my heart and vow honest injun I seen him up

ROCKEFELLER SCIENCE

GIFT IS \$3,820,000

Medical Research Donation Raised Amount Bestowed Upon Institute to \$2,240,000.

New York, Oct. 18.—John D. Rockefeller gave an additional \$3,820,000 to the Rockefeller Institute for Medical Research, thereby making his total gifts to this institution \$2,240,000 and also increasing his known contributions to philanthropy, education and science to \$125,004,662.

This total includes the estimated value of the buildings and land of the institute. The income bearing endowment, with the latest gift added, is \$2,240,000.

Announcement of Mr. Rockefeller's latest gift to the institution which bears his name was made at the opening of the institute's new hospital at the foot of East Sixty-sixth street. The opening of the new hospital was also chosen as the day for the coming into being of the new board of trustees of the institute.

They will take over the Rockefeller gift of millions from the Rockefeller general education board, which has administered the gift in the past. The new board of trustees is made up of John D. Rockefeller, Jr.; Frederick T. Gates, William H. Welch, Starr J. Murphy and Dr. Simon Flexner, medical head of the institute.

The initial gift of the institute was made by Mr. Rockefeller in 1901 when he donated a foundation fund of \$200,000. In 1902 the donor added \$1,000,000 to cover the erection of a laboratory and to provide running expenses for a few years. From the start the institute was a success and its work in discovering a new method of combating infantile paralysis, dysteria and spinal meningitis attracted the attention of scientific investigators all over the world.

BAPTISTS MEET IN CONVENTION.

Illinois and Michigan Members Assemble at Urbana and Detroit.

Urbana, Ill., Oct. 18.—The State Convention of Baptists opened here last night with a meeting of the pastoral union and the annual session, delivered by Rev. W. L. Dorgan of Mount Vernon, Rev. J. Y. Alchison of Chicago also spoke. The convention proper opens this afternoon, with President A. J. Scrogin of Lexington in the chair. The sessions close Thursday night with an address by Rev. Emory W. Hunt of Granville, O., president of the Northern Baptist convention.

Detroit, Mich., Oct. 18.—A meeting of the Michigan Baptist Ministers' conference last night began the State Baptist convention. Dr. E. V. Mullins made the chief address, and he will be heard again tonight at the first general session. At the latter meeting Mayor Brewster will welcome the members of the convention. Many good speakers are on the four days' program.

NORTH DAKOTA TEACHERS MEET

State Educational Association Begins Twenty-Fourth Annual Convention.

Bismarck, N. D., Oct. 18.—More school teachers than ever before gathered in one place in North Dakota are here today to attend the twenty-fourth annual meeting of the State Educational association. The general sessions do not begin until tomorrow, but this afternoon there were meetings of the departments of science and mathematics, history, civics and social science, industrial, municipal and rural education. Interesting papers were read at each of these and the discussion was lively.

Prof. E. Smith of Wahpeton will preside over the sessions of the general association, and the chief addresses tomorrow will be made by W. L. Stockwell of Bismarck, and Prof. E. P. Ladd of the state agricultural college. In the evening Rev. Andrew Gillies of Minneapolis will deliver a lecture on "Grumbling as a Fine Art."

HAD PSORIASIS FOR TEN YEARS

Itching and Burning Terrible. Appearance Worse. Had Specialists and X-Ray, with Some Success, Others without Relief. Used Cuticura. In 4 Days Relieved. Inside of 2 Weeks Cured.

"I had been suffering with psoriasis for a period of ten years. It would disappear occasionally for a year or so and then return in worse form than before. The last attack came on a little over a year ago, and by early summer had covered me all over. The itching and burning were terrible, and my appearance was worse. I had tried different specialists and had had the X-rays used on me, sometimes with some success, but I could not get rid of it. In the early fall of 1909 I was induced to try the Cuticura treatment, by a party who had heard of a remarkable cure it had made, and I confess that I started in, not only without faith, but with every prejudice against the medicine. In four days I was relieved of the inconvenience, and inside of two weeks cured, except for a slight discoloration of the skin, which wore off in a few weeks. I am now as well as I ever was. I am a man of 40 years, and I am a man of 40 years, and I am a man of 40 years."

Chinese Business Honesty.

With due respect for others, the Chinaman is perhaps the most honorable and upright business man in the world today. His business principles are founded entirely upon honesty, and he adheres to his policy with insistence of a leech. The chase after dollars stops if he has to resort to a low trick to get them. Of course, a little thing like telling a falsehood occasionally does not bother him so much; but when it comes to plotting and scheming to defraud some one, the task becomes distasteful. The equal of the Japanese in initiative and foresight, he is much their superior when integrity is concerned. A Japanese does not think twice before deciding to get the best of you. He calculates that you are liable to change your mind or get out of reach if he indulges in a little mental debate as to the propriety of cheating you.

Notice of Hearing.

STATE OF WISCONSIN—County Court for Rock County.

Notice is hereby given that at a special term of the County Court to be held in and for said County, at the Court House, in the City of Janesville, in said County, on the first Tuesday of May, A. D. 1911, being May 2, 1911, at 9 o'clock, a. m., the following matter will be heard and considered: Application of Mary J. Berkman for the appointment of an administrator of the estate of Winifred Berkman, late of the Town of Johnston, in said County, deceased.

All claims must be presented for allowance in said Court, at the Court House, in the City of Janesville, in said County, on or before the 15th day of April, A. D. 1911, or be barred.

Dated Sept. 16, 1910.

By the Court: J. W. SALLS, County Judge.

C. H. Henshaw, Atty. for Administrator, Sept. 17, 1910.

HANDY TIME TABLE.
